

Rating information

PRINCIPAL PLACE OF RESIDENCE (PPR)

For the sake of clarity, in identifying the rating category to which residential land belongs, the Council will assume that where a ratepayer's postal address is not the same as the property address, the land will not be the ratepayer's principal place of residence (PPR). In these circumstances, if a ratepayer considers that land is their PPR, the rate payer must submit an application to the Council using the prescribed form. Download the form at Council's website.

PENSIONER CONCESSIONS

Council shall provide concession of 30% on general rates, water, sewerage and waste management charges (but not State Fire Levy and water consumption charges) in addition to the State Pensioner Subsidy to eligible pensioners. Check eligibility by visiting www.isaac.qld.gov.au or speaking to an Isaac Regional Council Customer Service Officer.

WASTE MANAGEMENT CHARGES

Council will make and levy utility charges on all land within designated waste and recycling areas, whether the ratepayer chooses to use the service or not, towards recovering costs in relation to overall waste management services for the region.

SEWERAGE INFRASTRUCTURE CHARGES

Council will make and levy a sewerage charge on each property, both vacant and occupied, that Council has or is able to provide with sewerage services, towards recovering costs in relation to overall sewerage services for the region.

Council has an adopted Price Path to standardise the Sewerage Infrastructure Charges across the six (6) towns of Clermont, Dysart, Glenden, Middlemount, Moranbah and Nebo. This will mean decreases for some towns and categories and increases in others.

WATER INFRASTRUCTURE CHARGES

Council will make and levy a water charge on all land within the region, whether vacant or occupied, to which Council:

- a) Supplies water, or
- b) Is prepared to supply water

The Infrastructure Charge outlined on the rates notices goes toward the cost of owning, operating, maintaining and managing the water supply facilities and networks in eight communities across Isaac. The Infrastructure Charge shall be calculated in accordance with the Infrastructure Charge applicable to the particular use of land.

RATING CATEGORIES

The land categories are determined by both the Queensland State Government and Isaac Regional Council.

If you believe that your property has been incorrectly categorised you may submit an 'Objection to Category' form to Isaac Regional Council within 30 days from the issue date of the rate notice.

A property owner is liable to pay the amount listed on the rate notice even if the owner submits an objection.

It is the owner's responsibility to pay the full amount on the notice in order to claim any available early payment discount.

Where the rating category is altered because of the objection, the rates will be adjusted at that time.
